SENTINEL

DMARC Executive Authentication & Security Report

Comprehensive Domain Protection, Authentication Alignment & Threat Analysis

Target Domain:	**EXAMPLE.COM**
Prepared For:	**Enterprise Security Team**
Prepared By:	**DMARC Sentinel Automated SOC Engine**
Date Generated:	**2026-10-10 00:26 UTC**
Policy Status:	**QUARANTINE (Enforcement readiness evaluated)**

Notice: CONFIDENTIAL: This report contains sensitive threat intelligence and email authentication infrastructure data. Distribution restricted to authorized personnel.

Executive Security Summary

3,811	88.4%	3,369	442
TOTAL MESSAGES PROCESSED	DMARC PASS RATE	COMPLIANT VOLUME	UNALIGNED / THREAT VOLUME

During this audit period, **3,811** messages were verified across monitored domains. A total of **3,369** messages (88.4%) strictly conformed to RFC 7489 specifications. Receiver policy dispositions were applied as: **3,441** delivered (none), **233** diverted to spam (quarantine), and **137** blocked at the mail gateway (reject).

Authentication Alignment Matrix (SPF x DKIM)

Authentication Result State	Volume (Messages)	Percentage	Security Implication
SPF Pass & DKIM Pass (Fully Compliant)	3,242	85.1%	**Fully Compliant** Legitimate corporate email
SPF Pass & DKIM Fail	85	2.2%	**Partial Pass** SPF valid, DKIM missing or broken
SPF Fail & DKIM Pass	42	1.1%	**Forwarded / Delegated** DKIM intact, SPF invalidated by forwarder
SPF Fail & DKIM Fail (Total Spoofing)	442	11.6%	**Spoofing / Phishing** Unauthorized sending sources

Sender Inventory & Authorized Infrastructure

Sender Infrastructure / Base Domain	Service Name	Volume	Pass Rate	Status Classification
google.com	Google	2,330	100.0%	**Legitimate**
microsoft.com	Microsoft	825	100.0%	**Legitimate**
unknown.example	Unknown	135	0.0%	**Suspicious**
example.biz	Unknown Sender	115	0.0%	**Suspicious**
evil.example.net	Suspicious Sender	95	0.0%	**Suspicious**
amazonaws.com	Amazon SES	65	100.0%	**Legitimate**

Sender Infrastructure / Base Domain	Service Name	Volume	Pass Rate	Status Classification
mailchimp.com	Mailchimp	55	0.0%	Misconfigured
example.com	Internal	27	100.0%	Legitimate
protonmail.ch	Proton	15	100.0%	Legitimate

Threat Intelligence & Spoofing Sources

Attacking / Unauthorized IP	Reverse DNS (PTR)	Country	Autonomous System (ISP)	Blocked Volume
198.51.100.55		RU	Rostelecom PJSC	135
45.33.32.156		NG	MainOne Cable Nigeria	115
203.0.113.22		CN	CHINANET-BACKBONE	95
172.16.0.25	mail.mailchimp.com	US	The Rocket Science Group (Mailchimp)	55
203.0.113.99	N/A	N/A	N/A	42

Policy Enforcement Readiness & Recommended Actions

Action: Domain 'example.com' shows low pass rate (88.4%). Investigate unauthorized senders or missing SPF/DKIM records before enforcing strict policy.

Action: Legitimate email service 'Mailchimp' (mailchimp.com) is unaligned. Configure SPF include and DKIM CNAME records for 'mailchimp.com'.

Action: Detected 442 spoofed messages completely failing both SPF and DKIM. Ensure firewall / mail gateway blocklists include identified abusive IPs.
